ED 143 195 EC 102 227

TITLE	Teacher Recommended Materials for Use with Hearing Impaired Students.
INSTITUTION	New Mexico State Univ., Las Cruces. Southwest Regional Media Center for the Deaf.
SPONS AGENCY	Office of Education (DHEW), Washington, D.C.
PUB DATE	Aug 74
NOTE	337p.
EDRS PRICE	MF-$0.83 HC-$18.07 Plus Postage.
DESCRIPTORS	Articulation (Speech); Auditory Training; Aurally Handicapped; Bibliographies; Career Education; *Deaf; Elementary Secondary Education; *Instructional Materials; Language Development; Mathematics; Preschool Education; Reading; Social Studies; Total Communication

ABSTRACT

Intended for teachers of the deaf, the document provides a bibliography on instructional materials for aurally handicapped students from pre-primary to high school level. Materials for each age level are divided into eight categories: career education (adult level materials are also provided in this section); language; mathematics, reading; social studies, speech, auditory training, and speech reading; and total communication. Entries are listed alphabetically by title and include information such as title, format, level of use, reading level, and publisher. Also provided is a list of publishers' addresses. (SBH)

****
* Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original. *

FOREWORD

For the most part, educators of the deaf must depend on use of instructional materials that were not specifically developed for use with the hearing impaired. Some of these materials work well; others do not. To aid educators of the deaf in selecting instructional materials, the Southwest Regional Media Center for the Deaf has constructed a bibliography of materials recommended by teachers for use with hearing impaired students. The bibliography is based upon information gathered in a survey of 167 schools and programs serving the deaf with 70 or more students. Each bibliographic entry was recommended for use with hearing impaired students by one or more teachers.

All materials listed in this bibliography have been thoroughly checked with the publishers and are readily available from them as of August 1974.

We wish to express our appreciation to the schools and programs (too numerous to list here) whose cooperation made this publication possible.
